Dear Parents and Carers,

SAFER SCHOOL APP – FREE TO DOWNLOAD

As a school we have signed up to the Safer School App provided by our school insurance provider Zurich Municipal. It is free to download and contains a wealth of information and advice on how to keep your child safe online.

The app has been designed by Ineqe Safeguarding group. They specialise in safeguarding and child protection, both offline and in the digital world. The Chief Executive Officer of Ineqe is Jim Gamble, the former and founding head of Child Exploitation and Online Protection Centre (CEOP) and current Independent Chair of three safeguarding children boards in the UK.

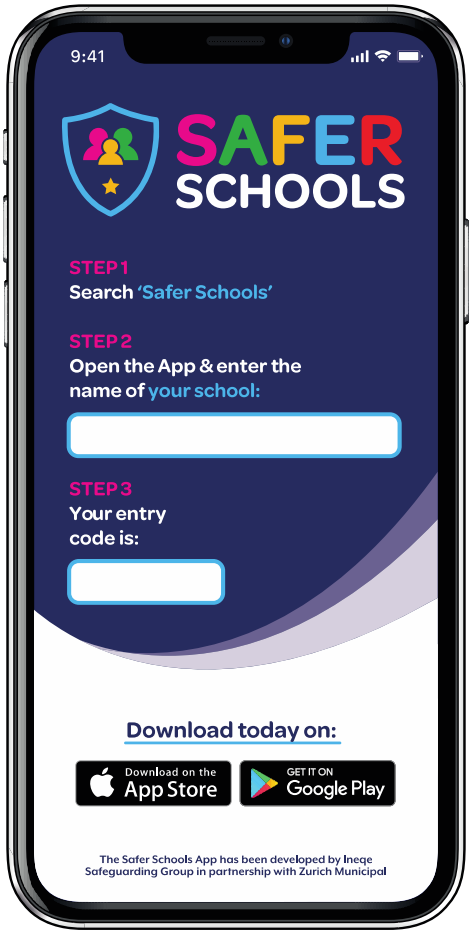

> *'My experience tells me that the best way to keep children safer is by educating and empowering them. That is why your new school App is central to the Safer Schools Package. The App puts the information you need, where you need it, when you need it – in your pocket.*
>
> *The App content is maintained, updated and refreshed everyday by our Safeguarding Team and is tailored to meet the needs of your entire school community at all levels. Inside the App pupils, parent/ carers and staff gain access to contemporary and credible information that is relevant for them.'*

The Safer Schools App has been recommended to the school by the Local Authority's Safeguarding Team and I would highly recommend that all parents make use of this great resource. The app also has content designed for children so if you have children who have their own phone, I would advise that the app is also downloaded onto their phone.

You can download the app from the app store on your mobile device (see logo above). Alternatively, you can download the QR link below and scan it to access the app.

Once downloaded, choose our school, Farsley Springbank Primary School and then enter the 4-digit access code below. There is a different access code for parents and pupils as the content is different for adults and children.

User Role	Login Code	QR Code Link
Pupil - Primary KS2	9342	Download
Parent/Carer - Primary	7440	Download

Make sure to enable push notifications to keep up-to-date with our tips, advice and guidance on how to make your children safer.*

About the App

The App is designed to support and protect children by educating and empowering them both at school and at home. Through their access, your children get access to information that is relevant to them and you will receive tips and advice on how to keep them safer online.

Excited? Ready to make your children safer? Download the 'Safer Schools' app now!

Best wishes
Sharon Percival
